Domestic Abuse: Implementation of Routine Enquiry

The Facts:

*1 in 4 women in England & Wales suffer domestic violence at some point
2 women are killed every week by a current or former partner
30% of cases of domestic violence start during pregnancy
90% of violence occurs when children are in same or next room
Physical injuries caused by domestic violence cost the NHS £1.2bn per year*

Health professionals are well placed to initiate standardised routine enquiry to identify and offer help and support to victims of domestic abuse.
