

# PERINATAL FORUM

Tuesday 12<sup>th</sup> September 2006

**Perinatal Institute**

Crystal Court, Aston Cross, Birmingham B6 5RQ

---

## *Obesity in Pregnancy*

*Maternal obesity is associated with complications throughout pregnancy and increased health risks for both mother and baby. The 2004 CEMACH maternal death enquiry reported that 35% of all maternal deaths were in obese women. Obesity is also associated with increased perinatal mortality. The purpose of this Forum is to highlight an urgent public health problem and to discuss strategies for clinical management and prevention.*
